Summary

The main topic of this course is how management accountants, also called financial controllers, think and act in order to reach the financial goals of a company. Financial methods and instruments such as business planning and budgeting, the use of key performance indicators (KPIs) as well as the examination of business reports and conducting product and target costing are some of the themes which will be addressed in this course.

Management accounting is a corporate function, which has to ensure effectiveness and efficiency of companies, especially concerning the main corporate objectives of profitability and liquidity. Managerial accountants are internal business consultants of all decision-makers and act as navigators for the achievement of corporate objectives.

Outline of the Course

- 1. Introduction
 - 1.1 Objectives of a company and tasks to achieve them
 - 1.2 Management and Management Accounting
- 2. Ensuring Effectiveness and Efficiency in a Company
 - 2.1 SWOT analysis of a company
 - 2.2 Business strategy and operating planning: Business planning and budgeting
 - 2.3 Target costing and pricing: The "right" products
 - 2.4 Article profit and loss statement
 - 2.5 Break-even-point analysis
- 3. Performance Measurement
 - 3.1 Management accounting reports and charts
 - 3.2 Financial ratios and financial ratio systems
- 4. Summary and Outlook

| LO | Learning objective | Contribution |
|-----|---|---|
| 1.3 | Students demonstrate key knowledge in Business Ad- ministration. | Deepening the knowledge of cost and activity accounting (e.g. target costing, process costing, life cycle costing, contribution accounting) and accounting. On the basis of smaller case study. The student simultaneously learns to know the application |
| 3.1 | Students are able to apply analytical and critical thinking skills to complex problems. | With the help of the methods of modern cost management, the student is able to analyse and critically evaluate operational decision problems with regard to their - especially strategic - cost and profitability effects and to make recommendations for an optimal decision from a profitability point of view. |
| 6 | Students show that they are able to work successfully in a team by performing practical tasks. | Working on exercises and case studies in a team to deepen the knowledge imparted. |

Course intended learning outcomes and their contribution to study program intended learning outcomes / Program goals

| | | Case 7: Du-Pont-Ratio System |
| 14. | 14. Dez | Conclusions: Questions / Preparation for the exam / Outlook on Manage- ment Accounting in other lectures and semesters |

Literature and Course Materials

Besides lecture notes (including a complex case study and additional exercises), which can be down-loaded from "E-Learning" (see course BAE2292-Financial Control / Prof. Schnell/ <u>https://lms.hs-</u>

<u>pforzheim.de/course/view.php?id=3281</u>), additional lecture will be recommended. You will find these hints in the lecture notes.

Assessment

Writing the final exam:

After the end of the semester, you will write a 60-minute exam on 'Controlling' in English. During the lectures, you will be prepared for the exam by preparing many case studies. Summaries and key learnings will be given that provide you with the framework of what to prepare for the exam. In addition, the style of the exam will be explained.

Corresponding to "§ 24 (2) SPO" the following grading for evaluating your exam applies:

| 1 = sehr gut = | very good = represents exceptional work. |
|--------------------|--|
| 2 = gut = | good = represents good work, far above average |
| 3 = befriedigend = | sufficient = represents average work |
| 4 = ausreichend = | still acceptable = represents below average work with considerable shortcom- |

ings 5 = *nicht* ausreichend .= failed = represents work which won't be accepted due to serious shortcomings

For a differentiated evaluation of the examination, individual grades will be increased or decreased by steps of 0.3; the grades 4.3 and 5.3 are excluded.

Academic Integrity and Student Responsibility

- Repeat the tackled chapters and the case studies of the lecture <u>regularly</u>, ideally minimum once per week!
- Don't hesitate do ask me if you don't understand something of the content of the lecture!!!
- Use written examinations of previous semesters, which are given to you for preparing the new ones and to get familiar with the character, the volume and the level of difficulty of the forth-coming examinations.
- Please read newspapers regularly and especially economic-relevant information to become aware of topical items, which are relevant for the lecture. By doing this, you will improve your capabilities to transfer theoretical knowledge into practice.

Teaching Philosophy

I care about your learning outcomes and helping you is important to me. If you have a problem or questions about some aspects of the course, do not hesitate to contact me. I will respond quickly and if necessary, we can make an appointment. If you have problems with your progress in the course, or with a teammate or your group please contact me as early as possible. I really want you to pass the exam, but you must earn it!
